## "Bakery +" - Breaking the Circle of Development Makes a Big Difference

China Bakery Exhibition (CBE) is an international bakery industry exhibition jointly organized by All-China Bakery Association (A.C.B.A.) and Guangzhou Sinobake International Exhibition Co., Ltd., which is the pioneer of professional exhibition in China's bakery industry. 2021, after reaching a strategic cooperation with Informa Group, relying on the resources of more than 20 years of plowing into the bakery industry by China Bakery Exhibition, it integrates the advantageous market resources of catering and food resources, through the offline exhibition, large summit and forum, roadshow activities and online cloud exhibition and e-commerce programs, the exhibition will create a "Bakery+" ecosystem, helping the global bakery industry to break down barriers and accelerate vertical digging and horizontal cross-border.

The 27<sup>th</sup> Bakery China 2024 will be held on May 10-12, 2024 at the Canton Fair Complex (Area D+A), Guangzhou, China. The new edition will be expanded to **150,000m<sup>2</sup>**, and will be held in conjunction with HOTELEX, FHC and Gife. This collaboration will ensure a vibrant and effective food & beverage market for exhibitors and buyers alike.

***Innovative linkage of the five exhibitions  
to build a new food and beverage ecosystem.***

## Exhibitors Feedback

This year, we deeply feel that the bakery industry is recovering rapidly, and we also appreciate the emergence of new trends and new movements in the industry! CBE has laid a brand new foundation for the future development of bakery industry.

With a steady stream of visitors coming to Mengniu's booth, we can see the determination and strength of the All-China Bakery Association (A.C.B.A.) in promoting the high-quality development of the bakery industry and we can feel that the bakery industry has a strong momentum of recovery.

This is not the first time for us to participate in CBE, but the huge and diversified flow of visitors this time is far beyond our imagination. We believed that there's still huge room for the bakery market to increase in size, and the industry will develop in the direction of health and nutrition in the future. Improving product power and strengthening marketing power will be the inevitable direction for industrial chain enterprises to move forward.

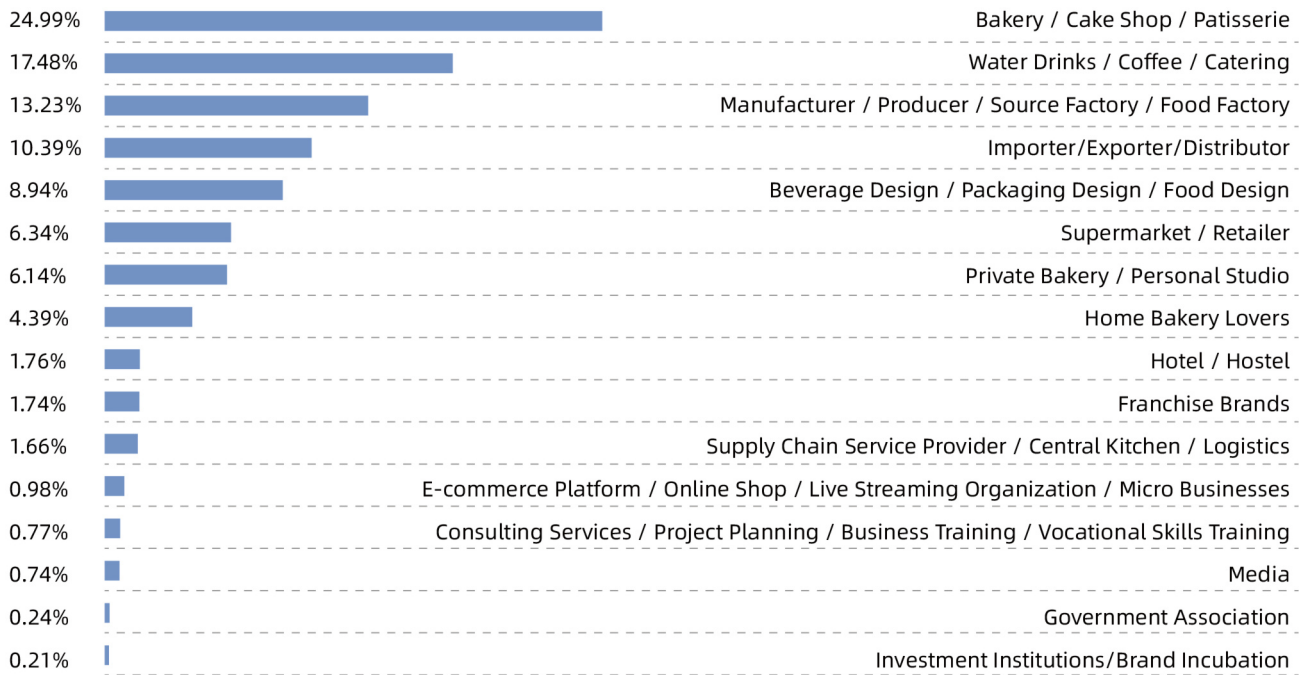

This year's CBE show was a show that exceeded expectations, with industry demand exploding at the show, and the potential of the bakery track was visualized. With the arrival of the era of consumption upgrading, bakery food is bound to become an important member of the main meal time, and I believe that under the collective promotion of all bakery colleagues, there will be more new changes and new breakthroughs in the bakery industry.

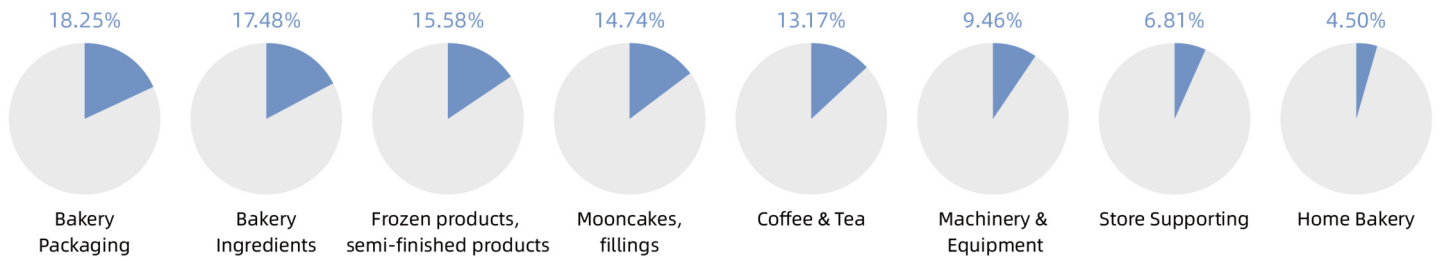

## Buyers Profile

CBE 2023 attracts a large number of **professional visitors** from bakery and catering terminals and raw material supply chain channels to visit and purchase.
