Seven things to start your new day with are closely related to the theme of "EAT". Food, for Chinese people is a matter of daily life and cultural heritage. Under the market background of diversity and individuality, innovation and demand, the pattern of food and drink consumption has undergone a qualitative change. Internet+, new media marketing, live broadcasting with goods......Many new models have brought products that were originally "largely hidden in the market" to consumers.

How to use self-resources and the current unique marketing charm, to make the traditional food and beverage industry more attractive to consumers, more market competitiveness, is one of the main issues facing the industry. As a leading comprehensive platform in the industry, FHC Shanghai Global Food Trade Show has always injected a steady stream of vitality into the realization of a broader dream of food. In 2021, the exhibition will further expand its capacity to cover the food category and local cuisine culture. Major theme exhibition areas and a series of international events with a wide range of themes are splendid. Online interaction, offline business matching, professional forums, all the activities existed to meet the needs of domestic and foreign audiences for food resources, supporting services and market expansion requirements around the world.

From 2020 to 2021, from "zero" to "one", it indicates hope, future and bright! The journey of food and trade is long, and we wish to explore it. We are looking forward to meeting you at the 2021 FHC Shanghai Global Food Trade Show, and feeling a delicious feast on the tip of the tongue!

高端食材供应链

HIGH-END INGREDIENTS SUPPLY CHAIN

在传统餐饮供应链环节中,餐饮企业的角色是非常重的,配送、研发等环节都要由餐饮企业承担,菜品生产、加工等步骤也在餐饮门店中执行,这就造成了供应链管理的各个环节难以标准化。反观一些龙头企业,食材供应的流通环节大部分是由餐饮供应链企业参与的,这对餐饮企业的规模化扩张无疑起到了很大的促进作用。FHC设立专区将国际高端连锁餐饮品牌的供应商邀至展会现场,从高品质的原料,调料,各式半成品以及成品一应俱全解决中小餐饮企业在供应链环节中的食材难题。

In traditional catering supply chain, the role of catering company is very important. The distribution, R & D and other links would be undertaken by catering companies. The steps of food production and processing are also finishing in catering stores, which makes it difficult to standardize the various links of supply chain management. However, some leading enterprises, most of the circulation links of food supply are participated by catering supply chain companies, which undoubtedly plays a great role in promoting the scale expansion of catering enterprises. FHC set up a special area to invite the suppliers of international high-end chain catering brands to the exhibition site and solve the ingredient problem of small and medium-sized catering companies in the supply chain link from high quality raw materials, spices, various semi-finished products and finished products.
